The first two games have ended! Congratulations to speedy Ken Gutermuth for being in both of them (finishing with 10 and 9 cards respectively -- but only third and second place despite large sets).

The results are posted at: http://www.gameaholics.com/adv_tournament.htm

I will be updating the results at least weekly from this point forward. I'll sort by standings once any player has finished all five games (rather than alphabetically). The links on the page make it easy to visit a friend's page and see how they're doing.

Thanks for playing so quickly -- and some of the fun comments I'm seeing (that will appear in the write-up eventually).

John
