Greetings Nobles!

I see, from my wife and others' experience, that creating the games is more of a challenge than I'd expected. My apologies!

So I've created this list of players in each game (for those not created at the moment). Please use it to create your remaining games.

Note: Please refresh the "Games Waiting to Start" list just before creating your game -- to ensure it's not there. Sadly, SpielByWeb has eliminated their unique name requirement -- and will allow a second game with the same name (which has already necessitated deleting two duplicate games).

Here's a copy of the set up instructions for ease of reference (be sure to send me the password too):

**Game Set Up:** When you log on SpielByWeb, please set up all of your games that haven't already been. To find and join games already created, select "Games List," click on "Passworded Games," and choose "Hoity Toity." To create a game, select "Create Game" and then click on "Hoity Toity." Fill in the form as follows:

*Game Name:* ADV BPA 18-r-g

*Comment:* All players' first names and last initial

*Password:* Anything you want (case-sensitive; e.g., auction)

*Number of Players:* Leave 4 and 5 ONLY checked

Once complete, email the other players and GM with the game name and password, so that they can join.

Thank you. Here are the pairing lists.

Have a wonderful Easter and a mischievous April Fool's!

John
